

## **Hanu Software is a Finalist for the 2011 Red Herring 100 Global Award**

PRINCETON, NJ - 12/8/11 – Hanu Software announced that it has been selected as a candidate for Red Herring's 2011 Top 100 Global award, a prestigious recognition honoring the year's most audacious and far reaching private technology companies and entrepreneurs from across the globe.

Hanu Software, one of the fastest growing IT services companies in the country, provides high-quality integrated outsourcing services to independent software vendors, enterprises and startups. Some of their key services include offshore software development, cloud application development, mobile application development, offshore software testing and business process outsourcing (BPO).

"We are honored to be recognized for the Red Herring's 2011 Top 100 Global award Finalist," said Anil Singh, founder and CEO of Hanu Software. "We are thankful to our Clients for their faith in our talented workforce for delivering the high-quality integrated outsourcing services."

The Red Herring editorial team selected the companies demonstrating the most innovative technologies and business models originating from over 1000 companies from over 40 nations. These companies, representing past Red Herring Asia, Europe and North America awards, are judged on a range of qualitative and quantitative metrics, including but not limited to, technology innovation, financial performance, growth criterion, management's execution standards, potential globalization of the strategy and market share improvement.

"Technology companies are becoming the bright spot in the economic outlook based on their increasing role within macro-economic environments." Stated Alex Vieux, Chairman of Red Herring. "2011 has confirmed the sector's vibrant activity and its resilience to widespread economic problems."

About Hanu Software Solutions, Inc.:

Leveraging best in class people, processes, and technologies, Hanu Software provides high-quality, high-value software development and business process outsourcing services to independent software vendors (ISVs) and enterprises. Founded in 2002, Hanu Software is dedicated to developing effective outsourcing partnerships with clients in order to accelerate time to market, reduce operational cost and empowering them to devote more time to their core business.
